Introductions

Panel discussions

Question 1: Related to strategy.

Which are the biggest drivers for automation in your organization?

Question 2: Related to people.

How are you organized around automation? And what are some pro's and con's?

Question 3: Related to process.

Which do you think is the most important process related to automation?

Question 4: Related to strategy.

Have you used any particular methods to get buy-in for automation in your organization?

Question 5: Related to onboarding.

What is your main challenge when it comes to onboarding more people to do automation?

Question 6: Related to technical design.

What is something technical about the platform, automation or Ansible, that you had to learn the hard way?

Question 7:

Thinking back on your automation journey, is there anything you would have done differently, with the benefit of hindsight?

Question 8: Related to development of automation.

What is the most common thing that people get wrong when they develop Ansible?

Question 9:

What is your favorite feature of Ansible Automation Platform?

Question 10:

As a panel member, you now get to ask a question to the audience. What question do you want to ask all our experts in the audience?
