Sweden AI Factory

Sweden AI Factory process

Awareness	Framing	Data foundation	Prototype	Pilot	Scaling	Advanced use	Independent
AI curiosity, no clarity	Clear problem, unclear solution	Data exists but unusable	First working model	Model works, process unclear	Value proven, fragile setup	Strong team, compute-bound	Full lifecycle in-house
Informed "yes / no / later"	Prioritised AI use cases	Governed, accessible data	Evidence of value	Trustworthy decision support	Repeatable AI capability	High-end AI workloads	Strategic autonomy

Sweden AI Factory

What we offer

- Expert support
- Compute
- Data access & management
- Training & upskilling
- Trustworthy AI
- An ecosystem of partners
